## Federal Aviation Administration

## 14 CFR Part 71

[Airspace Docket No. 99-AGL-41]

Modification of Class E Airspace;  
Cable Union, WIAGENCY: Federal Aviation  
Administration (FAA), DOT.

ACTION: Final rule.

**SUMMARY:** This action modifies Class E airspace at Cable Union, WI. A Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) to Runway (Rwy) 34 has been developed for Cable Union Airport. Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed to contain aircraft executing the approach. This action decreases the radius of the existing controlled airspace and redefines a portion of the existing controlled airspace using an additional navigation facility for this airport.

**EFFECTIVE DATE:** 0901 UTC, December 30, 1999.

**FOR FURTHER INFORMATION CONTACT:** Denis C. Burke, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

**SUPPLEMENTARY INFORMATION:****History**

On Tuesday, July 13, 1999, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Cable Union, WI (64 FR 37715). The proposal was to add controlled airspace extending upward from 700 to 1200 feet AGL to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. One comment strongly supporting the proposal was received from the Wisconsin Department of Transportation. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

**The Rule**

This amendment to 14 CFR part 71 modifies Class E airspace at Cable Union, WI, to accommodate aircraft executing the proposed GPS Rwy 34 SIAP at Cable Union Airport by modifying the existing controlled airspace. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 71**

Airspace, Incorporation by reference, Navigation (air).

**Adoption of the Amendment**

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

**PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS**

1. The authority citation for part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 95665, 3 CFR, 1959–1963 Comp., p. 389.

**§ 71.1 [Amended]**

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9F, Airspace Designations and Reporting Points, dated September 10, 1998, and effective September 16, 1998, is amended as follows:

\* \* \* \* \*

*Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth*

\* \* \* \* \*

**AGL WI E5 Cable Union, WI (Revised)**

Cable Union Airport, WI

(Lat. 46°11'39" N., long. 91°14'47" W.)

Hayward VOR/DME

(Lat. 46°01'08" N., long. 91°26'47" W.)

Seeley NDB

(Lat. 46°06'37" N., long. 91°23'02" W.)

That airspace extending upward from 700 feet above the surface within an 6.4-mile radius of the Cable Union Airport, and within 3.0 miles each side of the Hayward VOR/DME 038° radial extending from the 6.4-mile radius to 10.0 miles southwest of the airport, and within 1.8 miles each side of the Seeley NDB 226° bearing extending from the 6.4-mile radius to 7.6 miles southwest of the airport, excluding that airspace within the Hayard, WI, Class E airspace area.

## 14 CFR Part 71

[Airspace Docket No. 99-AAL-10]

Establishment of Class E Airspace; St.  
Michael, AKAGENCY: Federal Aviation  
Administration (FAA), DOT.

ACTION: Final rule.

**SUMMARY:** This action establishes Class E airspace at St. Michael, AK. The establishment of Global Positioning System (GPS) instrument approach procedures at St. Michael Airport made this action necessary. The St. Michael Airport status changes from Visual Flight Rules (VFR) to Instrument Flight Rules (IFR). This rule provides adequate controlled airspace for aircraft flying IFR procedures at St. Michael, AK.

**EFFECTIVE DATE:** 0901 UTC, November 4, 1999.

**FOR FURTHER INFORMATION CONTACT:** Bob Durand, Operations Branch, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; email: Bob.Durand@faa.gov. Internet address: <http://www.alaska.faa.gov/at> or at address <http://162.58.28.41/at>.

**SUPPLEMENTARY INFORMATION:****History**

On July 30, 1999, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish the Class E airspace at St. Michael, AK, was published in the **Federal Register** (64 FR 41360). The proposal was
